Re: CALFED Proposal - "Upper Trinity River Watershed Stewardship Project"

Dear Mr. Lowden:

The Trinity County Board of Supervisors wishes to express its support for the Trinity County Resource Conservation District's proposal requesting CALFED funding for watershed restoration planning and to conduct a sediment source inventory in the Upper Trinity Watershed. We have been concerned about the very high levels of turbidity that Trinity Lake has had since the storms of early 1997 and about the resultant impact on fisheries habitat downstream of the dam in both the Trinity and Sacramento rivers, along with the effect of this increased sediment reducing the life of the Trinity reservoir.

The Trinity River Basin below Trinity Dam has had a significant amount of restoration work through the Trinity River Fish and Wildlife Restoration Program since 1984, but little funds have yet been made available to address similar issues and problems (primarily erosion) above the dam. Given the recent heavy influx of sediment to Trinity Lake during 1997 and 1998 and resultant high levels of turbidity experienced, it seems appropriate that these issues now be examined and dealt with. We would like to see an inventory of sediment sources as well as the development of a Watershed Action Plan for the Upper Trinity River Watershed. This area is an important part of the watershed, especially as this is a significant source of water (averaging a million acre feet per year) for the Central Valley Project.

The Trinity County Board of Supervisors hope that the CALFED Bay-Delta Program recognizes the importance of the Trinity River basin as part of its overall restoration objectives, considers the wide community support for this restoration planning effort in the Upper Trinity River watershed, and recommends approval of funds for this worthwhile project.

Dear Mr. Lowden,

I am writing this letter to support the Trinity County Resource Conservation District's (RCD) proposal for funding through CALFED for watershed restoration planning and the development of an inventory of sediment sources in the Upper Trinity River watershed. I am concerned about the high levels of turbidity in Trinity Lake resulting from large storm events such as the one which occurred in January of 1997. I am sure this influx of sediment into Trinity Lake is having a deleterious effect on fish health and habitat downstream of the reservoir in the Trinity and Sacramento Rivers as well as reducing the life of the Trinity Reservoir. In this day and age in California where water has become such a precious limited resource, I believe we need to be taking steps to minimize any impact to existing reservoir capacities as well as addressing critical water quality issues that directly impact at-risk fish species.

Over the past 10 years, I have seen extensive resources committed to restoration work in the Trinity River basin below Trinity Lake, but little to no funds have been expended above Trinity Dam. I believe your proposal is a good step in the right direction. I would hope that the CALFED Bay-Delta Program recognizes the importance of the Trinity River Basin as part of its overall restoration objectives and recommends approval of funds for this project.

RE: CALFED Proposal

Dear Mr. Lowden:

I am writing to express my support for the Trinity County Resource Conservation District's CALFED proposal. I would also like to confirm the commitment of my organization to participate in the planning for watershed restoration in the Upper Trinity Watershed. This cooperative planning process to integrate watershed restoration fuels management, and sediment source inventory is integral to our efforts to reduce the turbidity levels in Trinity Lake, improve the downstream habitat, and prolong the useful life of the reservoir.

As you know, CALFED's willingness to address the long-term maintenance of the watershed in the uplands has much local support. Since the Trinity Basin loses 80% of the water from the uplands through the Clear Creek tunnel and into the Sacramento Basin, efforts to maintain the upper watershed's contribution to both the CVIP (averaging one million acre feet per year) and to the health of the mainstream are of vital importance, not only to Trinity County, but to the entire state.

We are encouraged that the CALFED Bay-Delta Program recognizes the role the Trinity River Basin plays and are pleased to be involved in this community-based effort for restoration planning in the Upper Trinity River Watershed.

Thank you for leading the planning effort. We look forward to continuing this planning effort.

Dear Chairman Lowden:

Subject: CALFED Proposal

The North Coast Regional Water Quality Control Board (NCRWQCB) staff would like to express our support for the Trinity County Resource Conservation District's proposal requesting CALFED funding for watershed restoration planning and to conduct a sediment source inventory in the upper Trinity River watershed. NCRWQCB staff has been investigating the severe erosion and very high turbidity levels in Trinity Lake and the Trinity River that have occurred since the January 1997 storms. The high turbidity levels have persisted and are impacting the important beneficial uses of Trinity Lake and downstream fisheries habitat in both the Trinity and Sacramento Rivers. The increased sediment yield is also encroaching on the capacity of Trinity Lake as a water reservoir.

The Trinity River has been the subject of extensive restoration efforts through the Trinity River Fish and Wildlife Restoration program since 1984. Most of this effort has been concentrated below the dam even though significant erosion is occurring in the upper watershed. Given the recent heavy influx of sediment to Trinity Lake during the past two winters and resultant high turbidity levels, it seems appropriate that these issues now be examined. We would like to see an inventory of sediment sources as well as the development of a Watershed Action Plan for the upper Trinity River watershed. This area is an important part of the watershed, especially as this is a significant source of water (averaging a million acre feet per year) for the Central Valley Project.

We are hopeful that the CALFED Bay-Delta program recognizes the importance of the Trinity River basin as part of its overall restoration objectives and recommends approval of funds for this project.

RE: CALFED Proposal for Upper Trinity River Watershed Stewardship

Dear Mr. Lowden,

The California Department of Forestry and Fire Protection (CDF) actively supports the Trinity County Resource Conservation District's proposal to CALFED to fund the Upper Trinity River Watershed Stewardship Project.

CDF has worked with the District on several Forest Stewardship partnership projects including the East Branch and Covington Mill Fuels Reduction and Fire Plan Development. We are currently working with the TCRCD on a Strategic Fire Plan for the County through the auspices of a Trinity County Fire Safe Council, along with the USFS and a number of private individuals.

The Trinity River Basin below Trinity Dam has had a significant amount of restoration work through the Trinity River Fish and Wildlife Restoration Program since 1984, but little funds have yet been made available to address similar issues and problems above the dam. We would like to see an inventory of sediment sources as well as the development of a Forest Health Fuels Reduction and Watershed Enhancement Plan for the Upper Trinity River watershed to prioritize projects for implementation.

I believe that the CALFED Bay-Delta Program should recognize the importance of the Trinity River basin as part of its overall restoration objectives and consider the wide community support for this restoration planning effort in the Upper Trinity River watershed and recommend approval of funds for this project.

RE: CALFED Proposal

Dear Mr. Lowden:

I am writing to express my support for the Trinity County Resource Conservation District's proposal for CALFED funding to perform watershed planning and to conduct a sediment source inventory in the upper Trinity River watershed. As a forest landowner upstream of the dam, I have been concerned about the recent sediment loads to Trinity Lake and high turbidity levels. I believe this proposal would have significant benefits to both Trinity Lake and downstream water users.

Since the winter storms of 1997, Trinity Lake has been subject to major sediment loads, which shorten the life of the reservoir, and high turbidity levels, which affect downstream fishery habitat and water users. Because of local concerns, the timing is right for an inventory of sediment sources and development of a watershed plan.

The Trinity County Resource Conservation District's projects have effectively reduced sediment loading to the Trinity River downstream of the dam. However, their ability to help landowners such as myself, who wish to reduce erosion and sediment transport from my property to Trinity Lake, has been hampered by a lack of funding for projects above the dam.

Due to the significant contribution from Trinity Lake to the Central Valley Project, and downstream benefits of an un-impaired Trinity Lake, I recommend that the CALFED Bay-Delta Program fund the Trinity County Resource Conservation District project. Thank you for your consideration.

DEAR MR. LOWDEN,

4/10/99

I recently read of your district's proposal to obtain CALFED funding to reduce sediment buildup in Trinity Lake. Given the importance of Trinity Lake to downstream water users, it would be in the best interests of CALFED to reduce the rate at which Trinity Lake is being filled with sediment. The recent high water years have deposited alarming amounts of sediment at the mouth of most major tributaries entering the Lake. The resulting turbidity levels also impacted downstream users and fish habitat.

It is vital that CALFED examine the entire watershed of the Trinity Basin and not simply isolate efforts below the dam. In this regard I urge funding support for your district's project. Please keep me informed as to what needs to be done to further your efforts.

RE: CALFED Proposal

Dear Mr. Lowden:

I am writing to express my support for the Trinity County Resource Conservation District's proposal requesting CALFED funding for watershed restoration planning, including a sediment source inventory, in the Upper Trinity River watershed. This watershed lies within the CCC's Klamath Service District, and I share your concern about the very high levels of turbidity that Trinity Lake has had since the storms of early 1997. I believe it is likely that this increased sediment load will not only reduce the life of the reservoir, but may also result in a negative impact on fisheries habitat downstream of the dam.

The Trinity River Basin below Trinity Dam has had a significant amount of restoration work through the Trinity River Fish and Wildlife Restoration Program since 1984, but little funds have yet been made available to address similar issues and problems (primarily erosion) above the Dam. Given the recent heavy influx of sediment to Trinity Lake during the past two winters and resultant high levels of turbidity, it seems appropriate that these issues now be examined and dealt with. I would like to see an inventory of sediment sources as well as the development of a Watershed Enhancement Plan for the Upper Trinity River watershed. This area is an important part of the watershed, especially as this is a significant source of water (averaging a million acre feet per year) for the CVPIA.

The California Conservation Corps is very interested in being a collaborator in the efforts to address these issues, both in the planning and assessment phase, and later in the implementation of any prescriptive measures identified. We have had nearly twenty years of experience engaging young adults in fish habitat improvement work on watersheds throughout the north coast, and under the mentorship of the California Department of Fish and Game we are also beginning to develop watershed

Dear Mr. Lowden:

I work for the California Conservation Corps as Chief of the Corpsmember Development & Project Support Division. I am writing to express my support for the Trinity County Resource Conservation District's proposal requesting CALFED funding for watershed restoration planning and to conduct a sediment source inventory in the Upper Trinity River watershed. I am concerned about the very high levels of turbidity that Trinity Lake has had since the storms of early 1997 and about the resultant impact on fisheries habitat downstream of the dam, along with the affect of this increased sediment reducing the life of the reservoir.

The Trinity River Basin below Trinity Dam has had a significant amount of restoration work through the Trinity River Fish and Wildlife Restoration Program since 1984, but little funds have yet been made available to address similar issues and problems (primarily erosion) above the dam. Given the recent heavy influx of sediment to Trinity Lake during the past two winters and resultant high levels of turbidity, it seems appropriate that these issues now be examined and dealt with. I would like to see an inventory of sediment sources as well as the development of a Watershed Enhancement Plan for the Upper Trinity River watershed. This area is an important part of the watershed, especially as this is a significant source of water (averaging a million acre feet per year) for the CVPIA.

I would hope that the CALFED Bay-Delta Program recognize the importance of the Trinity River basin as part of its overall restoration objectives and consider the wide community support for this restoration planning effort in the Upper Trinity River watershed and recommend approval of funds for this project.

Sincerely,

RE: CALFED Proposal - Upper Trinity River Watershed Stewardship Project

We the undersigned are very concerned about the turbidity that is affecting Trinity and Lewiston lakes, and the long-term effects it is having on the Trinity River, fishing resources and tourism in our county. We also recognize that this serious water quality problem could have an impact on the Sacramento River and the Central Valley Project, which depend heavily on the flow of water from the Trinity River. Therefore we support the Trinity County RCD proposal requesting CALFED funding for watershed restoration planning for the Upper Trinity River Watershed, and we respectfully urge the CALFED program to approve this funding request.

RE: Notification of CALFED Proposal for Upper Trinity River Watershed Stewardship

Dear Mr. Jelecich:

This letter is to inform the Trinity County Planning Department that the Trinity County Resource Conservation District plans to submit a proposal to CALFED for an Upper Trinity River Watershed Stewardship Project. As you are aware, the Trinity County Board of Supervisors unanimously agreed to support this project at their April meeting. The CALFED Proposal Solicitation Package requires that a letter of notification to the County Planning Department be made prior to submitting a proposal.

Since the storms of early 1997, Trinity Lake has been subject to major sediment loads, which shorten the life of the reservoir, and high turbidity levels, which affect downstream fishery habitat and water users. Because of local concerns, the timing is right for an inventory of sediment sources and development of a watershed plan. Trinity County Resource Conservation District's proposal requests CALFED funding for watershed restoration planning, to conduct a sediment source inventory, address fuels management concerns, and to develop a Watershed Enhancement Plan for the Upper Trinity River watershed.

The Trinity River Basin below Trinity Dam has had a significant amount of restoration work through the Trinity River Fish and Wildlife Restoration Program since 1984, but little funds have yet been made available to address similar issues and problems above the dam for the Upper Trinity River watershed. This area is an important part of the watershed, especially as this is a significant source of water (averaging a million acre feet per year) for the CVPIA. We hope that the CALFED Bay-Delta Program recognizes the importance of the Trinity River basin as part of its overall restoration objectives and considers the wide community support for this restoration planning effort in the Upper Trinity River watershed.

The TCRCD appreciates the support that we have received from the Trinity County Planning Department for past projects that we have been involved with and look forward to continued cooperation and support. Please give us a call if you have any questions or would like more information about this proposal.

Sincerely,

Resource Conservation Pledge

I give NoREEN DOYAS and defend the Natural Resources of my county, its Air, Soil, Forests, Waters and Wildlife.

**STANDARD CLAUSES -
CONTRACTS WITH PUBLIC ENTITIES**

Workers' Compensation Clause. Contractor affirms that it is aware of the provisions of Section 3700 of the California Labor Code which require every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of that Code, and Contractor affirms that it will comply with such provisions before commencing the performance of the work under this contract.

Nondiscrimination Clause. During the performance of this contract, the recipient, Contractor and its subcontractors shall not deny the contract's benefits to any person on the basis of religion, color, ethnic group identification, sex, age, physical or mental disability, nor shall they discriminate unlawfully against any employee or applicant for employment because of race, religion, color, national origin, ancestry, physical handicap, mental disability, medical condition, marital status, age (over 40), or sex. Contractor shall insure that the evaluation and treatment of employees and applicants for employment are free of such discrimination. Contractor shall comply with the provisions of the Fair Employment and Housing Act (Government Code Section 12900 et seq.), the regulations promulgated thereunder (California Administrative Code, Title 2, Sections 7285.0 et seq.), the provisions of Article 9.5, Chapter 1, Part 1, Division 3, Title 2 of the Government Code (Government Code Sections 11135 - 11139.5), and the regulations or standards adopted by the awarding State agency to implement such article. Contractor or recipient shall permit access by representatives of the Department of Fair Employment and Housing and the awarding State agency upon reasonable notice at any time during the normal business hours, but in no case less than 24 hours' notice, to such of its books, records, accounts, other sources of information and its facilities as said Department or Agency shall require to ascertain compliance with this clause. Recipient, Contractor and its subcontractors shall give written notice of their obligations under this clause to labor organizations with which they have a collective bargaining or other agreement. The Contractor shall include the nondiscrimination and compliance provisions of this clause in all subcontracts to perform work under the contract.

Availability of Funds. Work to be performed under this contract is subject to availability of funds through the State's normal budget process.

Audit Clause. For contracts in excess of \$10,000, the contracting parties shall be subject to the examination and audit of the State Auditor for a period of three years after final payment under the contract. (Government Code Section 8546.7).

Payment Retention Clause. Ten percent of any progress payments that may be provided for under this contract shall be withheld per Public Contract Code Sections 10346 and 10379 pending satisfactory completion of all services under the contract.

Reimbursement Clause. If applicable, travel and per diem expenses to be reimbursed under this contract shall be at the same rates the State provides for unrepresented employees in accordance with the provisions of Title 2, Chapter 3, of the California Code of Regulations. Contractor's designated headquarters for the purpose of computing such expenses shall be: Weaverville.

Drug-Free Workplace Certification. By signing this contract, the Contractor or grantee hereby certifies under penalty of perjury under the laws of the State of California that the Contractor or grantee will comply with the requirements of the Drug-Free Workplace Act of 1990 (Government Code Section 8350 et seq.) and will provide a drug-free workplace by taking the following actions:

1. Publish a statement notifying employees that unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance is prohibited and specifying actions to be taken against employees for violations.
2. Establish a Drug-Free Awareness Program to inform employees about all of the following:
 - (a) The dangers of drug abuse in the workplace,
 - (b) The person's or organization's policy of maintaining a drug-free workplace,
 - (c) Any available counseling, rehabilitation and employee assistance programs, and
 - (d) Penalties that may be imposed upon employees for drug abuse violations.
3. Every employee who works on the proposed contract or grant:
 - (a) Will receive a copy of the company's drug-free policy statement, and
 - (b) Will agree to abide by terms of the company's statement as a condition of employment on the contract or grant.

This contract or grant may be subject to suspension of payments or termination, or both, and the Contractor or grantee may be subject to debarment if the department determines that: (1) the Contractor or grantee has made a false certification, or (2) the Contractor or grantee violates the certification by failing to carry out the requirements noted above.

Americans With Disabilities Act. By signing this contract, Contractor assures the State that it complies with the Americans With Disabilities Act (ADA) of 1990, (42 U.S.C. 12101 et seq.), which prohibits discrimination on the basis of disability, as well as all applicable regulations and guidelines issued pursuant to the ADA.

Former State Employees: a) For the two-year period from the date he or she left State employment, no former State officer or employee may enter into a contract in which he or she engaged in any of the negotiations, transactions, planning, arrangements or any part of the decision-making process relevant to the contract while employed in any capacity by any State agency. b) For the twelve-month period from the date he or she left State employment, no former State officer or employee may enter into a contract with any State agency if he or she was employed by that State agency in a policy-making position in the same general subject area as the proposed contract within the twelve-month period prior to his or her leaving State service.

ADDITIONAL STANDARD CLAUSES

Recycled Materials. Contractor hereby certifies under penalty of perjury that ____ (enter value or "0" here) percent of the materials, goods and supplies offered or products used in the performance of this Agreement meets or exceeds the minimum percentage of recycled material as defined in Sections 12161 and 12200 of the Public Contract Code.

Severability. If any provision of this Agreement is held invalid or unenforceable by any court of final jurisdiction, it is the intent of the parties that all other provisions of this Agreement be construed to remain fully valid, enforceable, and binding on the parties.

Governing Law. This Agreement is governed by and shall be interpreted in accordance with the laws of the State of California.

Y2K Language. The Contractor warrants and represents that the goods or services sold, leased, or licensed to the State of California, its agencies, or its political subdivisions, pursuant to this Agreement are "Year 2000 compliant." For purposes of this Agreement a good or service is Year 2000 compliant if it will continue to fully function before, at, and after the Year 2000 without interruption and, if applicable, with full ability to accurately and unambiguously process, display, compare, calculate, manipulate, and otherwise utilize date information. This warranty and representation supersedes all warranty disclaimers and limitations and all limitations on liability provided by or through the Contractor.

Child Support Compliance Act. For any Agreement in excess of \$100,000, the Contractor acknowledges in accordance therewith, that:

1. The Contractor recognizes the importance of child and family support obligations and shall fully comply with all applicable state and federal laws relating to child and family support enforcement, including, but not limited to, disclosure of information and compliance with earnings assignment orders, as provided in Chapter 8 (commencing with Section 5200) of Part 5 of Division 9 of the Family Code; and
2. The Contractor, to the best of its knowledge, is fully complying with the earnings assignment orders of all employees and is providing the names of all new employees to the New Hire Registry maintained by the California Employment Development Department.
